

College and Career Readiness Indicator

Mississippi Department of Education
Office of Accountability
District and School Performance
July 10, 2018

What is the College and Career Readiness (CCR) Indicator?

- The ACT will be used to measure College & Career Readiness (CCR)
- The highest sub-scores for each student as of February of 2018, will be used in the CCR indicator.
- Students included in the Senior Snapshot will have until February (pending availability of data) of the academic year to participate in the ACT and have their highest sub-scores included.

Who is included?

- The ACT scores of all students identified in the Senior Snapshot will be included in the calculation.
- A student's score will be applied to the school in which the student is enrolled in MSIS at the time of the Senior Snapshot.
- Due to requirements under ESSA, there is no longer an exclusion for SCD students.

What do districts need to do?

- The MDE has populated the scores from the 2016-2017 statewide administration of the ACT in MSIS.
- Districts will be responsible for recording any sub score that is higher than the scores earned during the 2016-2017 statewide ACT administration.
- Only scores earned through February 2018 should be entered.
- Any changes to the highest sub score must be entered in MSIS by 3 p.m., July 27, 2018.

What do districts need to do?

- There is no need to enter an updated score if the student has met the ACT College Readiness Benchmarks for English or Reading and Math.
- The ACT College Readiness Benchmarks are as follows:

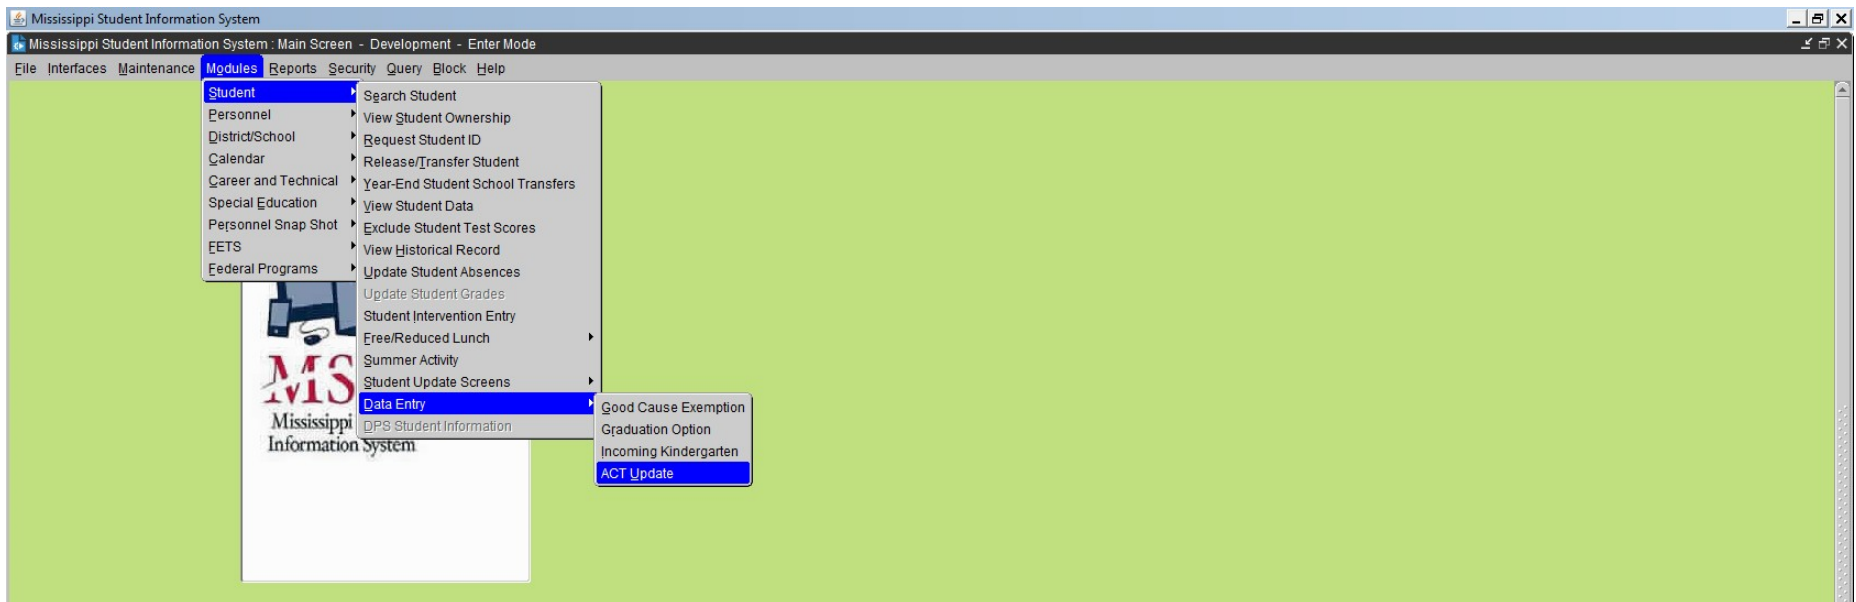

English – 18

Reading – 22

Math – 22

Where are ACT scores located in MSIS?
