

2018-2019 Mississippi Pilot Program

Delivering one of our state's top educator's approach (a 19-year Star Teacher and member of the Star Teacher Hall of Fame) to YOUR classroom can make a BIG Difference in ACT Results!

Faculty will rave

Fantastic product for schools! We implemented (Jumpstart ACT) in Algebra 1 and ACT Math with our Juniors and saw **increases across all demographics**. Great people to work with on implementation. Looking forward to working with them again this year and with new subjects being developed.

David Martin, Principal, Brookhaven High School

Our school did a pilot program with Jumpstart ACT and 20 of our middle school students. Our students took the ACT in February, completed the Jumpstart ACT program in March/April, and retook the ACT in April. We saw an average increase of over 2 points (ACT Math) and had 4 students increase their math score by 6-7 points!!! **I highly recommend this program and I hope that it will be used by schools in the future!**

Michelle Mathews Stubbs, Teacher, Madison County Schools

We have been working with the concepts of Jumpstart ACT for about 7 years and our ACT scores at our school have been higher than the state and the national average every year. This year we have a 22.6 average, which is the second highest (scores) in the state of Mississippi. **We are so proud of our students**, they come to MSA having scored a 15 or a 17 and **they jump as many as 5 to 8 composite points on the ACT** from going through the Jumpstart ACT workshops and have a better understanding the content.

Suzanne Hirsch, Executive Director, Mississippi School of the Arts

Our students really enjoyed the videos and step by step instruction presented through those videos! **The workbooks provide great practice for "refreshers" and also for upper level Math that students may not have had yet!** Sha was extremely helpful and thorough! Highly recommend!

Michelle Johnston, Instructional Literacy Coach, (principal designate to coordinate school implementation) Harrison Central High

2018 Field Study ACT Math Improvement Data

After Jumpstart ACT Implementation

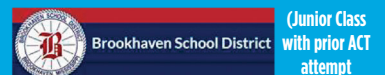

79% improved
an average of 2.93 points

88% improved
an average of 3.13 points

- Unique approach crafted by ACT® experts
- Helps students of all ability levels stay fully engaged
- Minimal faculty training completed at orientation meeting
- Streaming video modules are delivered on-demand
- Designed for classroom integration or individual study.
- Adapts to any curriculum constraint
- Review must-know content
- Includes testing strategies specific to the ACT®
- Provides realistic question practice

A proven, unique approach to improve ACT®, ACT Workkeys®, HSE & Praxis Core® exam scores

#jumpstartactworks

We have been taking these ACT prep courses for some time now, and after receiving my updated test scores I just want to say how thankful I am for having them. My first two times taking the ACT my scores always came out as a 15, **but after taking these prep classes at my school I came up 5 points!**

Kendarius Sterling

Jumpstart ACT pulled my math score up five points. It really helped me because **it was so easy to follow along with the videos**, and it also didn't take too much time to finish them. I really recommend this program to anyone who needs to improve their score.

Anna Grace Smith

Students enjoy

Jumpstart ACT was a simple easy to use study guide that helped my daughter work problems in an efficient manner and properly manage her time while taking the test. **She increased her score 8 pts. on the math section of the test.** She took a few hours each day for the 2 weeks before the test to complete the Math modules. She is looking forward to working the English modules and re-taking the test a few times her junior year. I would highly recommend this program to any interested Parent, Student, or school.

Mark Leblanc

Highly recommended! **Daughter improved math score by 4 points!**

Jumpstart began with one educator, **Dot McClendon**, and her passion to help students prepare for and perform better on the ACT® exam. ***After more than 40 years of dedication, her knowledge and expertise in this area is second to none.*** Dot's private tutoring and live classroom prep events have resulted in dramatic ACT® improvements for thousands of college-bound students. ***She has been selected STAR teacher nineteen times by students from three different schools and she is a member of the STAR Teacher Hall of Fame.***

After a lifetime of refining and perfecting her unique approach, Dot's desire to pass along this knowledge and experience has led to **Jumpstart ACT** and **Jumpstart AlgeBlast!** **Jumpstart's** mission of digitally formalizing and preserving McClendon's wealth of unique expertise in training students

for higher achievement on the ACT® exam as well as end of course MAP exams, will benefit students everywhere for years to come.

Give your EDUCATORS the classroom tools they need for improvement.

Faculty will rave.

- Expert ACT® review in the classroom via streaming video
