

SREB Math Ready and Essentials for College Math Statistics Unit
Teacher Feedback
Fall 2018

Background and Purpose:

In 2018, the Southern Regional Education Board (SREB) brought together a team of content experts from across the country in Mathematics and Statistics to update and strengthen the content in the **Statistics Unit** included in the SREB Math Ready/Essentials for College Math courses (MS course code: 270740, 270715) for future classroom use.

At this time, the unit has been revised and SREB would like to invite Mississippi teachers of these courses to pilot the new unit in their classes November – December 2018. The revised unit is approximately 100 pages, with an estimated duration of 2-3 weeks.

Interested teachers should complete the information requested below and submit this entire form to Dr. John Squires, Director of High School Programs, SREB, at John.Squires@SREB.org by **8:00a on Friday, October 26, 2018**. If selected, the teacher will receive a *draft copy* of the revised Statistics Unit and the dedicated URL for providing feedback. Once the teacher has completed the course test, he/she will receive a **\$100 gift card** from Amazon for personal use (courtesy of SREB) for their participation and time.

The feedback received will inform SREB of final revisions needed on the Statistics Unit for future classroom use.

If you have any questions for the MDE, please contact Dr. Marla Davis, Bureau Director, Office of Secondary Education, at mdavis@mdek12.org. If you have any questions for the SREB, please contact Dr. John Squires at John.Squires@SREB.org.
