2019 Mississippi Forestry Association Teachers Conservation Workshops

Join us this summer
for environmental
education, CEUs, and
fun with forestry!

MISSISSIPPI FORESTRY ASSOCIATION
TEACHERS CONSERVATION WORKSHOPS

Teachers Conservation Workshops, or “TCW”, are hands-on conservation workshops with an emphasis on forests and other natural resources. Participants learn by demonstration and practical exercises how conservation practices can be integrated into the classroom.

Instructors include professionals from many of Mississippi’s forestry-related agencies, organizations, and companies. Participants will be certified to use teaching materials of the nationally acclaimed environmental education curriculum, Project Learning Tree.

This is a highly active workshop, and some activities will require participants to be outside in the heat. Come prepared for nature walks, mill tours, and other outdoor activities. In addition to the scheduled activities, participants enjoy networking. Each workshop offers unique opportunities!

Eligibility

Teachers, school administrators, youth educators, and others may apply. Consideration will be given to teaching duties and past TCW participation, as well as application date. Registration for CEUs will be completed after you arrive at the workshop.

Registration / Enrollment

The fees are not refunded for cancellations less than 10 days prior to the selected workshop. Class size is limited. Your registration will be confirmed by e-mail. **The deadline for applying is two weeks prior to the selected workshop.**

Metro TCW

MFA Metro Teachers Conservation Workshop qualifies for 2.0 CEUs. Overnight lodging is not included with Metro workshop registration. Lunch will be provided each day.

North and South TCW

MFA North and South Teachers Conservation Workshops qualify for 5.0 CEUs each. Overnight dorm lodging is provided with your registration fee, however, you may choose to commute. You will be assigned a roommate unless a private room is requested. In order to account for 50 contact hours, prepare for 12 hour days. All meals will be provided.

TCW Alumnus Award

Completion of the selected workshop will qualify you for the prestigious TCW Alumnus of the Year Award. This award is presented annually to a past workshop participant who has effectively implemented conservation education activities (based on what they learned at TCW) in their classroom. The winner receives \$500, a plaque, and other gifts. Nomination forms will be provided. If you have a co-worker who has attended TCW and is using conservation education methods and techniques, let us know.

Mississippi Forestry Association

The Teachers Conservation Workshops are sponsored by committees of the Mississippi Forestry Association (MFA), a membership association representing the interests of 3,000 landowners, forest products manufacturers, professional foresters, and others. MFA member organizations, industries, businesses, and individuals make special donations of sponsorships, meals, tours, door prizes and their time to make TCW an enjoyable experience for all participants.
