

FREE self-paced online CEUs for K-12 science, biology, agriculture, environmental ed, or STEM teachers.

**Bringing the outdoors
into your classroom!**

Mississippi Forestry Association has combined our environmental education modules with internationally acclaimed Project Learning Tree professional development modules to provide you with exciting, hands-on lesson plans for any grade level. These modules are free, completely self-paced, and will be available through the end of 2020, but spaces are limited.
