

2020 CURRENT STATE OF PRODUCTS, PRODUCTION & PROCESS INFORMATION

SERVING OUR GLOBAL COMMUNITY DURING TIMES OF CRISIS

Coming Together During COVID-19

Dear Valued Clients,

At this point, there is little chance that you've missed the [CDC's recommendation](#) to use hand sanitizer to combat the spread of Novel Coronavirus (COVID-19) when soap and water are not available. With people buying up every last ounce of hand sanitizer in the brick and mortar stores, it's difficult to know where to turn.

We have organized the following slides to familiarize you with our available products, production ability and purchase process information to fulfill orders smoothly.

We are actively working with our manufacturing partners to address orders in a timely fashion. Available quantities are limited, so we will do our best to share what we know.

CRC Group is here to help!

Hand Sanitizer Solutions

Hand Sanitizer and COVID-19

Hand Sanitizer on the skin not only eliminates bacteria, but also prevents bacterial re-infection by maintaining a long lasting nano-protective barrier.

An instant hand sanitizer that kills 99.9% of all germs and known flu viruses. This sanitizer is tested to kill Swine Flu H1N1, Bird Flu H5N1, MRSA and the active ingredients have been tested positively for killing SARS, Norovirus and **COVID-19**.

(COVID-19) FORMULA NO. 40-B
Alcohol Antiseptic 70% Topical Solution

INGREDIENTS

- Alcohol 70% - 80%
- Glycerin - 1.0%
- Hydrogen Peroxide 0.125%
- Water 18.50%

Manufacturing and Production

Hand Sanitizer Production

We utilize three production facilities, strategically located in the United States.

We have the capacity to fill up to 600,000 bottles per day based on the bottle size.

FDA and WHO Compliant

Our manufacturing partners and products adhere to all FDA and World Health Organization requirements as they relate to consumer and medical standards for hand sanitizer. We have all the documentation to prove it.

Sizes and Formulas Available

We have a variety of sizes and two formulas to meet your needs with 7-14 day lead times on bulk orders upon receipt of payment.

- ▶ Available Sizes:
 - Cap: 4oz, 8oz, 17oz, 34oz
 - Pump: 64oz & 1 gallon

STEPS DURING COVID19 TO SECURE PRODUCTS

NOTE:

Some steps in this process may change depending on delivery terms, sourcing and destination information.

All order information will be declared on the quote, purchase order and invoice.

All sales are final.

1. Submit a purchase order for desired quantities. Include all business and contact information.
2. We will email your Invoice with wiring Instructions for 50% of purchase order.
3. Upon confirmation of wire, your order will be placed in manufacturing queue.
4. We will notify you promptly if timing will be any different than 7-14 days based on pending queue.
5. Upon completion of your order, we will send a request for the remaining balance prior to shipment.
6. Shipping is FOB from production facility unless otherwise agreed upon.
