

LISTENING TOUR

The Mississippi Economic Council (MEC) and Accelerate MS will conduct eight regional Ecosystem listening tours to gather essential information to help form the strategic plan for Mississippi's Ascent to 55% initiative.

The Ascent to 55% initiative is made possible by a \$1 million grant from the Woodward Hines Education Foundation to the Public Education Forum (a subsidiary of the MS Economic Council) spread over four years to develop and execute a strategic plan to guide policy and develop marketing to increase the number of Mississippians with degrees and credentials of value.

The current attainment level for Mississippi is 45.2%, with the goal of reaching a 55% attainment level by 2030 and 60% by 2035.
