

# STEM

**Oxford, MS  
October 30-31**

**Laurel, MS  
November 2-3**

Help your students step back in time and explore the history of science, technology, engineering, and mathematics through the Library of Congress' collection of primary sources. In this workshop, participants will learn how to find, evaluate, and use historical primary sources from the Library of Congress in their science, math, or other STEM lesson planning.

Stipends will be provided to participants who complete the training.  
Some travel support is available for in-person sessions.

**Visit our website to learn more and to register for upcoming sessions!**
